Qui fit Maecenas non vere, non audeam dicere. CICERO.

THURSDAY, JUNE 19, 1884.

Special Telegram

Simoca, Tucuman,
June 16th.

The Methven sugar factory began crushing this day.

Everything proceeds most satisfactorily.

Splendid cane crop, and everything promises very well.

ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

London, 17th.

It may be considered certain that the International Conference for arranging the Liquidation Law in Egypt will assemble shortly. It will be held in this city.

Brussels, 17th.

The Cabinet is reformed: M. J. Malone takes the Presidency and Finance, M. Jacobs the Interior, and M. Moreau Foreign Affairs.

PRESS TELEGRAMS

Montevideo, 18th.

Telegrams from Lisbon announce the death of Lucio Arauco.

The Sud America has arrived.

Government of Buenos Aires has purchased from Enrique Figueiras the oldest and most valuable collection of coins and medals in this country.

Heavy contraband of preserved meat discovered.

Santurio is likely to win his dispute with Alcantara about right to the port scheme.

Perez Gomar will go as Minister to Germany.

Rosario, 18th.

The papers will strongly oppose the proposed Municipal Loan of 800,000 pats.

Public health improving here.

Weather foggy.

IMMIGRATION.

Pending the decision of Congress on the various projects now before the House to increase European emigration to this country, and to assist the cause by the State paying a portion of the passage-money, it may be both useful and interesting to instruct our legislators as to what is doing in other parts in the same line of business.

It will be seen by the notices hereunder, which we extract from the English papers received by the last mail, that not only does the Canadian Government do precisely what Congress is now asked to do—namely, defray a portion of the emigrants' passage-money—but furthermore, it opens a Canadian Land Office in London and Toronto, and places at the disposal of that office 2,000,000 acres of good agricultural grain-growing land, with permit to the manager to grant a free fee-simple title of 160 acres to every agricultural family emigrating from Europe to Canada and settling on the land granted.

Our Canadian friends evidently know the right way of doing a thing when resolved on—a line of education in which we all here in the Plate are so remarkably deficient.

When Mr. Alfred Lumb left for Europe, a month or so ago, we called attention to what the Government might do and could do with respect to its reserve lands of 20 square leagues on the Colorado Rincon Grande; but although the attention of some of our public men was then called to the subject, who admitted the excellence of our suggestion, nothing has been done. Now we have Congress head and ears in this immigration question, disputing about advancing a few dollars to reduce the expensive passage-money, when, if we landed the people here to-morrow, there is not a man in all Buenos Ayres who could tell them where to go to, to get a farm to begin life.

Such defective legislation speaks ill for the men at the front of affairs. We want some sound, practical man in Congress who will rise from his seat in the House and read out in Spanish the following "avisos" published by the Canadian Government in every paper in the United Kingdom:—

EMIGRATION.

EXODUS OF FARMERS TO CANADA.

DOMINION LINE—Reduced Fares—Steamers leave Liverpool on Thursdays. Cabin, from £16 10s; Intermediate, from £7 7s; Steerage, £5 5s. Assisted passages to agriculturists and domestic servants, £3; mechanics and others, £4. Through tickets issued to all parts of Canada, Manitoba, North-West Territory, and United States at special rates. Pamphlets and all information on application to the managing directors, Flinn, Muir, and Montgomery, 24 James Street, Liverpool.

CANADIAN NORTH-WEST.

Two Million Acres of splendid Wheat and Grazing Land are open for settlement in the South Saskatchewan district, which is famous for its fertility and beauty. The climate is delightful, and there is an abundant supply of good water. Each settler obtains

A FREE GRANT OF 160 ACRES;

with option of purchasing more on very liberal terms. Tenant farmers especially should avail themselves of this opportunity to acquire rich virgin soil for less than the yearly rent of inferior land in England.

Full particulars forwarded, post free, on application to Mr. John H. Telfer, Barnstaple, General Agent of the Temperance Colonization Society (Limited). Head Office: 114 King Street West, Toronto.

Mr. Telfer has visited the country and speaks of it from personal observation.

THE NORTHERN CAMPS.

The earthworks of the Transandine Railway are now going ahead the other side of Junin, and next month, the contractors will begin laying the rails; soon we shall be able to go by rail from this city to Mr. Oostendorp's magnificent estancia, and by the end of the year the farmers and estancieros on the Loreto and Venado Tuerto lands can go out by rail to a point within 6 leagues of the town of Venado Tuerto, which is grand news for our friends out there. Mr. Cleminson, the distinguished London engineer, who is connected with this company, has gone out to Mercedes and will return to the city in a few days.

The Media Luna camps are now becoming as thickly stocked and settled on as the Lincoln, and people who rarely leave the city of Buenos Aires can form no idea whatever of what is going on outside of Junin, and in the camps in that direction. We learn from a German estanciero that the rich black soil in most of these camps averages a yard deep. Casado's railway to Candelaria will be continued to the Guardia Esquina, and from thence in a direct line to Carlota, in the Province of Cordoba, where Mr. Funes, President Roca, Sr. Olmos, and a hundred others have large cattle estancias. The railway will run right through Terrasona's fine estancia, 8 square leagues, alongside Venado Tuerto, and all wire-fenced; and this year the enterprising owners plough up 500 squares of alfalfa. It is hard to say now whether the Loreto or Venado Tuerto lands are more stocked and settled on; some of the inside farmers, who bought lands in the Loreto, have sent out cattle and sheep to make a start in settling their land, but the sheep when they arrived up there were at once bought by the neighbours at 40 and 41 %, and our countrymen who sold their flocks came back to their old partidos to buy more at 30 % and repeat the business. New 'puestos' for sheep are going up on all sides in the Loreto camps, where the flocks show an increase of 40 per cent. The Cañadas are covered with soft grasses, and our German friend says there are no camps that he knows to beat the Venado Tuerto and Loreto.

Another sale of land near Melincue, 4 square leagues, has been made at 16,000 pats per league, and for all good lands thereabouts there are plenty of buyers at this rate, but owners ask more. All along the San Nicolas and Pergamino Railway the cereals abound at the wayside stations, exposed to the inclemency of the weather, the railway being utterly unable to provide galpones and shelter for such a large supply of cereals, which is much to be regretted. The first American two-storey wooden house ever put up on an estancia is now on the way out from Chicago and will be put on the *Dorado* estancia Loreto: 12 rooms, corridor, sash windows, etc., first cost 500 pats. Loreto may score one over every other partido in the country for this advance.

LATEST FROM SANTA FE.

The commission intrusted to Mr Luis Pastor by the Government of the province, for taking various statistics of the different establishments of industry in Rosario, has just been terminated. According to Don Luis Pastor's figures, in the four sections we find the following:—

Torlasco & Co. fabricate annually 30,000 arr. of soap, 10,000 do. of tallow, 50,000 do of candles; capital being 25,000 m/n and number of employes 20. Juan Colli & Co.'s tannery works, 25,000 sheepskins, 500 carpincho skins, 500 nonatos, 400 calfskins, in the space of 1 year and a half, 3,000 horse skins, 1000 suelas; the value of the property being 10,000 m/n, and number of employes about 55. The brick factory of Dejeau & Co. gives out per annum 217,000 bricks, 313,000 square tiles, and 72,000 roof tiles; the value being 40,000 m/n, capital 16,000 m/n, number of employes 22. The Blanco Mill, the property of Pedro Brana, and which is not at present working, has a value of 35,000 m/n. The Colorado Mill, in the same state as the one already mentioned, has a value of 15,000 m/n, and belongs to Mr Manuel Arijon. The Cilindros Mill of Rosario, belonging to H. B. Coffin, established towards the end of 1883, has a value of 40,000 m/n, capital 100,000 m/n, number of employes 25. Mr. Abznet's tannery has a value of 4,000 m/n, and a capital of 8000 m/n. Santiago MacLangeklin's tannery has a value of 6000 m/n and a capital of 8,000 m/n. That of P. Echaluz has a value of 5000 m/n, and a capital of 15,000 m/n. That of P. Echezar a value of 200 m/n, and a capital of 300 m/n.

The Molino Nuevo of Santos, Ferrari Bros. has a value of 3000 m/n, and a capital of 5000 m/n.

The steam-factory of Mendelirce Merica & Co, has a value of 50.000 m/c. The "function" of this factory may be classed as follows:—4 'tostadoras' that can work 200 arr. of coffee per day. 4 coffee grinders, capable of grinding 300 arr. of coffee per day. Two do. for sugar, capable of grinding 300 arr. of sugar per day.

There is also a machine that fabricates 20 arr. of ice per hour. Everything is worked by steam; seven persons are employed.

Next Sunday there will be a fête at San Lorenzo in honor of the distribution of prizes in the public schools.

The late storm has been the cause of creating some disorder in the telephone wires.

HOME NEWS.

(From our own Correspondent.)

MOTION OF CENSURE.

The result of Sir Michael Hicks-Beach's motion on the Egyptian Question was a small majority for the Government. The Irish members voted with the opposition. The speech of Mr. Gladstone on the occasion is considered to be weak and disappointing, and almost to have created consternation amongst his own adherents.

FOREIGN OPINION.

"Vienna, May 14.

"According to information derived from an entirely trustworthy source the speech delivered by Mr. Gladstone in the House of Commons on Monday night has confirmed the opinion shared collectively by the Austrian, German, and Italian Governments, to wit, that it would not be consistent with their interests to remain indifferent spectators of such calamities as now threaten Egypt. They have resolved, in principle, to exercise their intervention at any moment that may appear favourable, and no longer to trust exclusively to the discretion of the English Cabinet. To the best of my belief, the three Powers will not interfere directly in Egypt, but will insist upon the employment of Turkish troops to crush the rebellion. It is hardly necessary to say that Count Kalnoky and Prince Bismarck do not view the Mahdi and his followers in at all the same light as Mr Gladstone does, and are not by any means disposed to regard them as a people fighting for their freedom. Indeed, the two statesmen alluded to have a strong aversion to that theory which assimilates every insurrection of the kind to the legitimate efforts at emancipation of a persecuted race. That is not the passage in Mr Gladstone's speech which gave least umbrage here and in Berlin. In the English official despatches addressed to the Continental Governments the rising in the Soudan has always been distinctly referred to as a rebellion, and the "fighting for freedom" theory has never before been hinted at. Austrian, German and Italian statesmen look upon the outbreak in the Soudan as a disastrous and in its present proportions most alarming movement, that must be checked as soon as possible by the co-operation either of British or Turkish forces with such forces as the Khedive still disposes of. Possibly the result of the Conference negotiations may be awaited before the Powers concerned follow out the course they have decided upon in principle. In any case, the time when England will be left free scope in Egypt is approaching an end. Mr. Gladstone's Egyptian policy has not only caused anger and shame at home, but has at last aroused grave apprehension abroad."

It must be understood that the foregoing is from a correspondent of the *Daily Telegraph*, which is now very unfriendly to the Government in anticipation of a possible dissolution.

How the wind blows may be seen from the following extract from the *Pall-Mall Gazette*:—

The Irish members were right after all. The *Standard* officially announces that the leaders of the Opposition have decided to throw out the Franchise Bill on the second reading in the House of Lords. They hope to force a dissolution, and as there is nothing Mr. Parnell desires more earnestly than an event which would double his fighting strength, the Irish members do well to back the men who promise to secure them an addition of at least twenty votes in the House of Commons. As to the decision of the Opposition, we have always counted upon it, but to reject the Franchise Bill is not necessarily equivalent to precipitating a dissolution. The only chance that the bill would get through depended on the quarrel between Lord Salisbury and Lord Randolph Churchill, and when that was composed the fate of the bill was sealed.

The *Standard* says:—

"We have good reason to believe that the Government have arranged with the Duke of Marlborough to commute for the sum of £107,000 the pension of £,4000 per annum, which has been paid to the Dukes of Marlborough since the year 1710. Another important pension dealt with is that of £4,000, dating from 1790, granted to William Penn and his heirs for ever, for which we believe that £67,000 has been paid to the present representative of the Penn family. The negotiations with regard to the Schomberg pensions are not yet finally completed. Payment of the above sums has, we understand, been made by means of Exchequer warrants.

They say in America that Lord Randolph Churchill would make a tour of the States after Parliament adjourns. Lord Randolph is said to be the coming man of the Conservative Party, and Lady Churchill is an American, daughter of Leonard W. Jerome, of New York. Lord Randolph is a good deal American in his Conservatism, and if he comes to power in the Party will remodel it, so as to make it fit better into the conditions of the day. People in Europe suppose that Americanism is the reverse of Conservatism, whereas the Republic is intensely Conservative, and the Conservatism of Europe will in process of time be modelled on the Conservatism of America. Lord Randolph seems to see this, and it may one of these days make him Prime Minister of this Empire; but he will have to fight his way up against much prejudice.

PARIS LETTER.

(From our Own Correspondent.)

May 10th.

M. Le Héron is to be pitied. He proved a charge home of infidelity against his wife, and she was condemned to the usual three months' imprisonment in the Saint Lazare prison, the *Cour des Miracles* for the *filles de joie*. Influence was brought to bear on M. Grévy, and he changed the sentence into a fine of 1,000 francs: this carried costs, and the husband one morning was called upon by the bailiffs to stand and deliver. Instead, he has taken an action against M. Grévy for exercising a prerogative that the Code confers on the outraged husband alone, and it is adding insult to injury to make him pay the cost of the chastisement that he had inflicted on his ex-better half. M. Grévy has a "constitutional" weakness to lean to clemency: it would grieve him to see a rose expire, even in aromatic pain. But he is accused of another weakness, and not unpeculiar to humanity in general, an antipathy to anything like diarrhœa in his purse. If President Grévy be called upon to pay damages for pardoning sinners, he will be metamorphosed into a Draco, and that will be a bad day for assassins found guilty, without the usual "attenuating circumstances." Diebler, the guillotiner, must be egging on M. Grévy. It is said there are no Romans now—judge. A policeman suspected his wife's fidelity; he tracked her to the lodgings of a comrade; he followed her home; she confessed she had stolen and given to her paramour some railway shares, purchased by the husband out of his savings. He at once took his *moitié* into custody, and marched her straightway to the station-house.

A banker, and a native of Tunis, came to Paris to spend his honeymoon. On visiting one of the monster shops he prigged unconsidered trifles to the amount of twenty francs. He and the bride were interviewed by a commissary of police, and reminded that Bardo treaty schemes only existed for nations. He was sentenced to pass two weeks of his honeymoon in prison.

Campi was quickly dispatched. At eleven at night he was playing cards and finishing a novel in bed. The next morning, six hours later nearly, he arrived at the foot of the scaffold: in one minute and a-half his separated head and trunk were in a coffin. Three hours later the doctors were experimenting if a decapitated head could "whisper what thou feelest." By the afternoon the body had been thoroughly dissected, the brain extracted, weighed and bottled for posterity: the heart, as small as an infant's—the wonder is that he had any at all, when his atrocious crime is remembered—was also put under a glass-case, and in the course of next week his grinning skeleton will be in position in the anatomy gallery, and a lecture delivered about him to the assembled Bob Sawyers. That metamorphosis, within a fortnight, in less time than to receive, say a telegram from Gordon Pasha!

Victor Hugo presided at the annual dinner of the Societe des Gens de Lettres. He arrived not in a Sedan—that name is unmusical for French ears—chair, but a *chaise à porteurs*. It was in that position Marshal Saxe commanded at Fontenoy. Hugo refused to wear a muffler or top-coat, such were only good for "young people." He apologised for his increasing deafness, the result of listening, perhaps, like Beethoven, only to the Infinite. The affectation stood to him, and was taken advantage of by the chairman proposing Hugo's health—"The Molière, Shakspeare, Dante, Virgil, Homer, Français." That beats the rolling of two single gentlemen into one. The gods on Olympus must have indulged in an Homeric broad grin at the encyclopædic flummery.

"There was a sound of revelry" the other night at the Palace of the Legion of Honour. General Fairdherbe allowed the Polytechnians to give a subscription charity ball there, he being an alumnus. The Polytechnians are those smart-looking students, dressed in cocked-hat, court sword and cod-fish tail coat, to be met with on the Boulevards on school holidays. They are generally civil engineers in embryo; they are proverbially politicians. One day after Napoleon I. was crowned on the ruins of the Repnblic, he complained to Monge, the Director of the Polytechnic school, that his collegians were hostile to the Imperial dynasty. "Sire," replied Monge, "give them a little time; it is only with difficulty we have just made them Republicans." The ball was very successful; the monster cotillon, led by the General's married daughter, comprised 5,000 persons; its wriggling was longer than the most exact surveys made of the sea-serpent when last seen.

There were in 1883, 46,298 persons arrested in France, of this number 430 were British and 47 American. China was represented by one pigtail. Other statistics: If the posters employed during the Municipal elections were posted endways, they would represent a total, length equal to "the natural boundaries of France, Rhinewards."

The representatives of Madame Tussaud "will please accept this notice." The little caléche, drawn by goats, and in which the late Prince Imperial, when a baby, took his rolls abroad with his nurse and governess, in the forest of Fontainebleau, is for sale. It would be a capital companion picture alongside the Waterloo landeau of *Mon Oncle*.

The marriage of General Mite and Millie Edwards, of the "Midgets" family, enables a journal to observe—"English Generals often wed famous actresses."

OSCAR GOLD MINE.

INTERVIEW OF MR. J.H. MURCHISON, F.R.G.S., MR. YORK, AND CAPT. DAW WITH HIS MAJESTY THE KING OF SWEDEN AND NORWAY

On April 19, at the Royal Palace Stockholm, the above-named gentlemen were introduced to King Oscar II, by His Excellency the British Ambassador, Sir Horace Rumbold, and were received by His Majesty in a very kind and cordial manner. A suitable address having been presented a fine specimen of stone rich in gold, recently broken from one of the lodes, a piece of gold weighing about 2½ ozs., and a gold ring and bracelet, all taken, extracted and manufactured (by Messrs Hunt and Roskell, London) from the produce of the Oscar Mine, Bommel Island, west coast of Norway, were respectfully offered to His Majesty for himself and the Queen. The King, in graciously accepting the same, expressed his warm thanks for the friendly wishes and sentiments conveyed in the address, and spoke in terms of admiration and pleasure as to the presents tendered to him. He said that the Queen was away, but that he would deliver the bracelet to her on her return. Finding that Capt. Daw had been about 16 years in Norway engaged in mining pursuits, His Majesty asked him a good many questions, not only about the mines, but also as to the workpeople, and was pleased when told that only Norwegians and Swedes were employed. On being informed that a large portion were Good Templars His Majesty remarked that he was glad to hear it, and that they were the sort of men to give satisfaction. The King made special reference to the Bratsberg and the Nedenes Copper Mines, and asked questions about them. He repeatedly stated in the most emphatic manner that he would do all he possibly could to assist and support, within the lines of the Constitution, such legitimate enterprises in his country. After a very agreeable interview the King again cordially shook hands with the deputation, who retired. Her Majesty's Ambassador at Stockholm, and Mr. Michell, the British Consul-General at Christiania, were indefatigable in their attention to their countrymen, and in assisting them to carry out the ceremony with success.—*Mining Journal.*

THE CITY OF BUENOS AIRES TRAMWAYS COMPANY, LIMITED.

Many English investors are too apt to make the mistake of taking narrow views, and of assuming that, if their money be embarked in distant localities, it must necessarily be exposed to increased risk of loss. That this impression is founded upon mistaken ideas is once more shown by the experience of the City of Buenos Aires Tramways Company, Limited, whose £5 fully-paid Shares stand at £8. 10s. to £9, and whose Permanent Six per Cent. Debenture Stock commands, as will be seen by reference to the Stock Exchange Official List, about 20 per cent premium. Moreover, the price—8½ to 9—now current for the £5 Shares is *ex* the dividend of 4s and the bonus of 1s per Share which, formally declared at the meeting on the 23rd ult., became payable on the 25th. Here is, in a word, an instance of an Anglo-Foreign Tramway Company which has earned and deserved success by means simply of that good, sagacious, and far-seeing style of management without which no business, be it private or Joint-Stock, can prosper. It is not a case of a Tramway Company enjoying a monopoly; so far from this being the case, there is a keen competition in the Tramway business at Buenos Aires, the "Trams" of other Companies, in fact, running in streets parallel to those occupied by this Company. But the "City of Buenos Aires" Company has conquered its position by means of a liberal and efficient service, and by the improvements which it is continually making in that service. The consequence is—and the fact was referred to with natural pride by one of the Directors speaking at the recent meeting—that the Company has been enabled to command a larger traffic in proportion to its mileage than any other Company in the city. After all, the conditions of success are much the same at Buenos Aires as in London and everywhere else. "An improved and regular and very frequent service is the real basis of Tramway success" was truly observed by Mr Drabble at the meeting. This gentleman is well acquainted with Buenos Aires and with Argentine undertakings generally, and by the light afforded by his remarks, together with some valuable observations dropped by Mr Benjamin Isaac, the Chairman, we are enabled to foresee, in the future, a very considerable addition to the profits already acquired by the Company. Thus, the Chairman observed that, although the year—1883—now under review compares with the year of the Great Exhibition at Buenos Aires, when all traffic was exceptionally stimulated, the number of passengers travelling by the Company's trams in 1883 exceeded those of 1882 by about 10 per cent., and the money received for those passengers increased about 8½ per cent., whilst the goods traffic produced about 55 per cent more than in 1882. It is, we think, more especially in the expansive capacity of the goods traffic that there is a reasonable prospect of a good increase in the Shareholders' dividends. Buenos Aires is a city that is always growing; and, more particularly, under the watchful care of its enlightened Government, the means of developing the commerce of this, the most important port in the Republic, are always being enlarged. Great improvements are projected and are taking place in the method of discharging and loading goods at the numerous moles on the banks of the Riachuelo—a street possessing a frontage to the great river upon which Buenos Aires is built, and one great advantage held by the City of Buenos Aires Tramways Company is that its Line has access to those moles or quays. "I have always considered, and I still entertain the same view," said Mr. Drabble, "that our goods traffic is capable still of very great increase, and undoubtedly, with the improvements in the port, we shall command very materially the advantages to be derived from it."

One of the points that tend to strengthen confidence in the Company is the method pursued by the Directors in dealing with the reserves. Thus, at the meeting just held, £1,000 was carried to the permanent way renewal account, £2,000 to the reserve fund, and as much as £8,000 to what is called the "contingent fund." This contingent fund is, in fact, a sort of second reserve fund; or it may be regarded as a deferred bonus fund. The first object of the Directors in establishing it was that they might be enabled to take advantage of every opportunity that might present itself to improve the Company's system and to offer increased accommodation to the travelling public on the most economical terms. But, after carrying out this first object of its assistance, the amount of the contingent fund still grows, and when it accumulates beyond the sum which the Directors, in their experience, consider necessary, they make distributions amongst the Proprietors in the shape, not of dividends, but of "bonus Shares." The wisdom of this policy, regard being had to the conditions under which the Company works, will be apparent to reflecting Shareholders, and need not be further dwelt upon. It need only be added that the Chairman at the meeting last month, while carefully guarding against committing himself to an explicit pledge, held out the promise that "perhaps at this time next year" another distribution of bonus Shares may be hoped for from the same source. The whole position is thus one of a favourable and satisfying character.—*Money Market Review.*

BUENOS AIRES GREAT SOUTHERN.

In the course of his speech at the late meeting Mr. Fair stated that the new extension lines were, in the words of Mr. Coghlan, the "tit bits" of the south. Mr. Fair assured the meeting that these two short lines would tap "one of the richest districts of the south." The extensions in question are from Maypu to Mar del Plata, 81 miles and from Juarez to the Tres Arroyos, 57 miles together 138 miles. Now, if 138 miles of line had to be constructed in England it would be cheap at £25,000 or £30,000 per mile. Our 18,500 miles of home railway have cost upwards of £41,000 per mile. Earthworks here are heavy, tunnels numerous, bridges many, law and compensation tremendous, land a serious charge, and even Parliamentary expenses are so high that they would go a long way towards building a railway in the Argentine country, which is nearly as flat as a pancake, while it is productive of a large traffic. Of course we know it is possible to make a railway in this favoured land that will not pay, but every extension line of the Buenos Aires Great Southern has been successful, nor would its original line from Buenos Aires to Chascomus ever have enabled the Company to own the handsome property they possess, without the judicious extension policy which has been applied. The original line came into the Company's possession at a cost of £11,000 per mile. Including the new lines about to be opened, the present line, 693 miles, averages only about £7,000 per mile, and the 138 miles of new line can be made it seems for £6,000 per mile, including rolling stock. The Company always make their lines substantially as well as economically, and here we may remark that they are thus successful by dint of doing the work themselves, a policy which they adopted ever since they extended their original line. At £6,000 per mile very little traffic will suffice to yield an excellent return, and as the new lines will feed the existing ones the results are pretty sure to be of a gratifying character. Branch and extension lines in England have generally brought the value of the parent lines down, simply because the traffic profit on their high cost brought direct loss, and they fed the old lines with very little additional traffic. The traffic served by the branches previously found its way to the trunks. But it is quite different in the province of Buenos Ayres and indeed in the Argentine country generally, for these extensions in well settled and rich districts come into a traffic which upon the exceedingly low cost of £6,000 or £8,000 per mile pays well, and the old line is moreover fed with a traffic it would either have not had at all or only in small quantities. The developing powers of a well placed railway in such a country as the Argentine is quite wonderful, and we may not feel surprised if at some future time the Buenos Great Southern yielded as much as from 15 to 20 per cent. dividend, or as much as our own Taff Vale, whose stock is at near 300. The capital outlay is nearly known. Everything depends upon the future traffic, which, of course, at present is in a measure unknown. There is every reason, however, to expect a large supply. A question has arisen, how far the new railway projections in Buenos Aires will interfere with the Buenos Aires Great Southern Railway, and upon this important matter we are glad to read the remarks of Mr. Fair. He intimated that those lines could not do "any possible harm" to the Buenos Aires Great Southern, and said further—"Most of these extensions are from Branches of the Western Railway (which belongs to the Government and is a handsome property,) and the only bit of the system which can touch us is the section from Puan to Bahia Blanca. I have travelled over the line from the westernmost corner down to Bahia Blanca, and there is no doubt that it is the least promising of the whole of our system." ** "I feel perfectly confident that if this great network of railways is carried out to Puan the Government will avail itself of our railway from that point to Bahia Blanca." Therefore the Government projections are likely to be of advantage to the Buenos Aires Great Southern, instead of disadvantage.

It appears from a telegram from Buenos Aires, published this week, that the Republic is prospering, and promises great development of its resources.—*Herepath.*

BUENOS AYRES AND ROSARIO RAILWAY.

An ordinary general meeting of this Company was held at the Cannon-street Hotel on Thursday, May 15; Mr. Geo. W. Drabble in the chair.

The Secretary (Mr. J. B. Davison) read the notice convening the meeting, and also the minutes of two previous extraordinary general meetings.

The Chairman—It is now, gentlemen, my duty to move the adoption of the report, which I suppose you will take as read—(Yes). I will first remark that our Board is not fully attended to-day. Our chairman is absent in South America, not specially in connection with this enterprise, but he has promised, and it is not more than you would expect, that he should whilst there personally inspect and thoroughly examine the whole of the existing line and the works that are now going forward. We expect him back either in the course of the following month, or in the month of July, and I have no doubt that he will then be prepared to give a full and detailed report of everything he has seen. We also expect he will be accompanied by our consulting Director, Mr. Coghlan, and these gentlemen will of course be able to furnish very accurate information, and a great deal of detail, which is very important in the inception of an enterprise like the present. Our Director Mr. Shaw has availed himself of a few weeks of holiday, he has worked very hard; he left last month, when everything had been put forward, and has sought that relaxation which I think he well deserved. Now, gentlemen, in moving the adoption of the report, I will first very briefly call your attention to the opening paragraphs; those paragraphs deal with the working of the part of the line now completed—that is to say, the 50 miles of line which was originally called the Buenos Ayres and Campana Railway. Of course, that being the work of the past year, we may say the present Board has had very little to do with it; but still it is very satisfactory to us to be able to find in the figures that have been presented, and the results which are now given to you, confirmatory evidence of all statements that have been made in the prospectus and of the promises that have been given at the various meetings since the reorganisation. You will find that the gross receipts show a satisfactory increase for the year 1883 over that of 1882. The gross weight carried, in fact, shows an increase of 18 per cent.; and although the net profits are not in proportion to that, still the explanation given by Mr. Clarke, the general manager of the line, shows the reason why that net profit is not so large—arising mainly from a reduction in the passenger fares and the traffic rates, which it was considered desirable to make, in order to assimilate our rates to those of the other leading South American Companies. Notwithstanding that the increase in the net profit is something over last year, the same argument can be applied to show why the percentage of working expenses is more this year, 1883, than it was in 1882. Of course a larger volume of traffic at low rates cannot be carried at the same percentage as a smaller volume at a higher rate. Therefore we find that the percentage of working expenses of the year 1883 was 54.74 as against 52.56 in 1882. I am informed by the secretary that he has received one or two letters calling our attention to that point, and I have no doubt your attention may have also been called to it, because in the prospectus that was issued, asking for the subscription of the £600,000 perfrence stock we assumed a percentage of working expenses of 50 per cent. Now, I think, we may conclude that in assuming that percentage of expenses we were right in so doing, because, basing our estimate upon the results that have been shown by our Companies in those countries, and recognising the fact that to work a large concern with a mileage amounting to nearly 200 miles, as compared with a small Company which is only 50 miles of line, it is self-evident that we should be able to work at a less per centage than the smaller mileage—(Hear. Hear). I allude to that because at first sight it appeared to some who have addressed letters to the secretaries to be a disappointing feature. But on the other hand, if you will carry your recollections back to the statistics when we issued that prospectus for the £600,000 preference shares, you will find we assumed as a basis of calculation that the amount of 1,275 as the gross traffic per mile for the year, whereas the returns in the report now submitted for your aproval give the amount of £1,326 as the gross earning per mile. Therefore, we were under the estimate in that respect, and I am pleased to be able to inform you that our traffic receipts from January, so far as they have been received, coming down to the 6th of April, show an increase of £2,722 over those of the corresponding period of the year 1883, or something like 15 per cent.—(Hear, hear). I think it is not necessary to dwell further upon the returns of the past year's traffic. Suffice it to say that the assurance is given to us by our traffic manager that the whole of the buildings, the locomotive department, the bridges, &c., &c., are all in first rate order. Some considerable extra amount has had to be spent this year, which has also swollen our working expenses, owing to the very heavy rains during the winter season. That is exceptional, though of course it is a thing which may sometimes be expected; perhaps another year a drier season will not oblige us to incur those heavier expenses.

EDITOR'S TABLE.

Sugar! Sugar! Sugar! The news from Tucuman is supremely sweet. Two new sugar factories have been inaugurated in Tucuman—Messrs. Methven and Co's and Mr. Claria's. If the sugar business continues to grow as fast as at present for a couple of years more, the sweetness of the Vale of Avoca will be totally eclipsed by that of the Vales of Tucuman.

The 'remate' for the Lanus Races of the 24th held by Messrs. Craufurd and Huergo at the Bodega was in consequence of the small attendance adjourned to the Cafe San Martin which Mr. Jessi, the owner of this popular resort, very kindly placed at Messrs. Craufurd and Huergo's disposal. A good deal of busines was done, but no notable change in public opinion as to the relative position of the different horses. Don Rafael is favourite for the first race, Consuelo for the second, Balaklava for the third and Diana for the last. This evening by special arrangement Messrs. Craufurd and Huergo will hold a 'remate' again at the Cafe San Martin in the room above at 8.30.

There was nothing very new yesterday, except the fire on the West Coast, at Iquique, and Dr Clara's second pastoral. A fire at Iquique is no "novedad:" the place seems to be the cradle of fires, earthquakes, and political bobberies. Two whole 'manzanas" were burned down, and over one hundred families left homeless.

The Faust disaster was repeated on Tuesday night in the Colon Theatre. The demonstration this time was against the new tenor Tecchi, in Traviata, in which he was making his debut. The audience, out of respect for Mdlle. Theodorini, bore patiently the absolute massacre of some of the tit bits of the opera by the tenor, but in the last act, during the duet with the prima donna, the storm broke, and with fearful fury. We should be sorry to think that the whistles, tramway horns, etc had been expressly brought for the occasion; however, there they were, and there was no question about their effect. The tenor will certainly have to retire from the field into winter quarters. Madlle. Theodorini received several ovations during the performance. At the fall of the curtain in the fourth act Madlle. Theodorini was re-called, and that adventurous gentleman, the tenor, venturing to accompany her, was received with cries of 'fuera,' 'fuera.' He beat an abrupt retreat and left the field to the prima donna who was applauded to the echo. Tamagno now alone has to save Ferrari's credit, if indeed it can be saved.

We are sorry to say that the improvement in Commissary Suffern's condition on Tuesday was but temporary. He was much worse yesterday.

Two black "mucamos" in the service of the well-known broker, Dn. Juan Fernandez, won, one 4,000 and the other 2,000 Nats., in the Lottery drawn on Tuesday. They turned white with joy when they read the extract.

H.M.S. Pelican has arrived at Montevideo from Plymouth.

The enterprise of journalism in this country rushes into strange grooves. Some of our colleagues considered it money well spent to pay for telegrams describing the dresses worn by some of the ladies at Mr. Shaw's magnificent ball in Montevideo on Monday night. The most go-ahead journals of Europe and the United States have not yet used the wires for this purpose.

Hurry up! Hurry up! Mr. MacKern has very few boxes left for Mr. William Martin's grand charitable tournament to-morrow night.

The police investigation into the robbery of jewels from Mr. Constenla's mart reveals the pleasing fact that the value of stolen gems, rings, etc. is only $170,000 % and not $400,000 as at first supposed. There is as yet no sign of catching the thief or thieves.

We have received a communication styled "Jack and Jill," written brilliantly; but as we consider it rather on a severe popular and deserving Society, we must decline to publish it.

M. Nersant had a "bumper" at his benefit at the Opera House on Tuesday night. The audience was most enthusiastic, as the play—"Demi-Monde" was admirably acted by all the artists.

Things look rather crusty in Mercedes. All the bakers in that town struck work the other day, and shut their shops. The police broke open the doors (as if that would bake bread) and the Municipality sent to Suipacha and Chivilcoy for "the stuff of life," but could get so little of it that the most villanously hard biscuits were sold at one paper dollar each. The row has been brought about by the Municipality trying to force the bakers to mark its weight on each loaf, which the refuse to do; why is not so clear. Governor D'Amico has been appealed to in the matter, and we suppose will arrange the affair. Meanwhile Bagley's famous Biscuits are in prodigious demand in Mercedes.

We call the attention of juvenile sportsmen to the advertisement of a paper chase to be held between Barracas and Flores, on July 9th. This will be a most amusing affair. We have not heard who is to be the hare; but he can "make a hare" of the hounds if he has good wind and knows the game.

Our enterprising neighbour Mr. Thomas Sheil had a few empty boxes, a table and some chairs burned by accident early yesterday morning, and the evening papers made so much of the matter that $30,000 m/c was the estimate of damage made by one of them. We are happy to say that this is all nonsense, as Mr. Sheil's loss is quite insignificant.

As our American Cousins say, "bull-y" (no pun intended) for the steamer Toro. She met with such a fearful gale on her last trip to Bahia Blanca that it took her five days to make the passage. The captain fastened down all the hatches, put her nose to the wind, and rode out the gale in perfect safety. The Toro has proved herself a first-class sea boat.

40 Hermosisimos CARNEROS

LINCOLN

Elejidos en Inglaterra y venidos a la consignacion del

Sr. Don DIEGO H. GETTING.

Los animales son notablisimos por su gran tamaño, riquisima lana y abundante carne

Elejidos espresamente para la Republica Argentina

En la mejor

CABAÑA INGLESA

Al mejor precio y al contado

EN NUESTRA CASA

51—SAN MARTIN—51

El de Junio 1884

A las 2 en punto

Venderemos al mejor precio y al contado, por orden y cuenta del Sr D. Diego Getting, los 40 hermosisimos carneros Lincoln que llegaran al pais con el vapor Thales.

Los animales que ofrecemos forman el mas selecto lote de Lincoln que se haya presentado en remate, han sido elegidos entre los mejores por su tamaño, lana y abundante lana y disposicion para el engorde.

Los Sres. cabañeros no deben olvidar que la exportacion de carnes asegura para los productos y cruzas de raza Lincoln una venta colosal que puede ser la base de una gran fortuna.

Al mismo tiempo debemos avisar a los Sres. Estancieros que el Sr Getting recibira por el vapor Lamport, un selecto lote de 30 hermosas ovejas Lincoln.

Las mejores venidas al Rio de la Plata, todas servidas por padres notables.

Este lote llamara la atencion de los estancieros, pues no se ha vendido nada mejor.

PURE

Cod Liver Oil.

Prepared by LANMAN & KEMP,

An infallible remedy for the cure of all diseases of

The Throat,
Chest and
Lungs.

Used perseveringly together with the

ANACAHUITA PECTORAL,

It has effected surprising cures in many desperate cases of

Consumption

and other Lung Diseases.

A FIERCE STRUGGLE:—Disease is ever preying upon man; from the cradle to the grave, more than one half of the human family have to contest inch by inch the progress of some ailment. What a boon then must Bristol's Sarsaparilla and Pills be; they purge all poisonous matter, they purify the blood and humors, they give tone and power to the whole system, and enable the body to throw off dicease that would otherwise have hurried it to the grave.

Carter's Vegetable Seeds

Another assortment just received specially selected for this climate.

ON 'CHANGE.

June 18th, 1884

Cedulas E	89⅜
Cedulas F	84⅛
National Bank Shares....	152½
Scrip	70
Hard Dollars	89

The Bolsa ruled exceedingly dull this morning, but the share market was very firm in spite of the dearth of news and of the limited scope of operations. All awaited with anxiety this morning some news about the loan, but nothing new transpired. The share market opened slightly weak in consequence, but closed firm. Operations for the end of the month embraced 1,300 shares; the market opened at 152½, fell to 152⅜, and closed hard at 152⅝, buyers for the 30th. No operations were marked for July on the board, but fair amounts have been passed at $1⅛ the share quoted at 130.

Cedulas ruled weak and dull as usual. Fifteen thousand Series E were sold for the end of the month at 89⅜, and a few thousand Series F changed hands for cash at 84⅛. Both Series closed weak, much offered at these rates. The paralization of the Cedula market is becoming more complete every day, and all the late operations are falling off, the word Cedula may soon be removed from the black board.

Bank Scrip ruled firmer this morning; 200 were sold for the end of the month. This shews a rise of one since yesterday.

22,700 National Bonds of 1863 were sold today cash at 89.

The National Government did not take the three million francs drawn by private firms in the market yesterday. The Government has not taken exchange for months, and does not require to do so at present in view of the credit at its disposal in Europe. The amounts drawn yesterday were taken by several private banks. The market this morning was at a complete stand-still in view of the sailing of the packet, and no operations were reported.

The money market shews no change; the situation continues slightly stringent, but operators on the Bolsa state that they find plenty of money and can pass over operations with facility at 1⅓, and at quotations from 130 and 140. Discounts in the market are not very easy, but 7 o/o. is freely quoted all round.

The Provincial Senate appointed ex-Governor Rocha member of the Board of the Provincial Bank yesterday. Dr. Ortiz Rosas was appointed Director General of the Schools in the Province.

The Bolsa secretary has put up a notice that no members, except brokers, can enter the liquidation parlor after 1½ p.m. This measure was much called for in view of the crowded state of the parlor every afternoon. It is to be hoped that the measure will be enforced.

Messrs Norton & Co. have applied to the War Office for the grant of packet privileges for the steamer Arajo.

Messrs Bernardino, Bartorello & Co. have received advices from England announcing the departure of their small steamer for the Plate. These merchants intend putting this steamer on the Rio Negro river in the far South, to ply between the town of Patagones and Fuerte Roca. As she is of light draught, only 15 inches, she will do well on this route. It is really most worthy of remark that this Italian firm in Patagones should take the lead in this matter, when Messrs. Kincaid, who have a fine estancia close to Pringles on the Rio Negro, and whose brother is a well known Scotch steamboat builder, have not taken the initiative in the business. It is but another evidence of the precedence Italian enterprise takes in the Plate.

Italian Bank shares are in demand, and 158 was offered to-day for a small lot and refused; the holder of the only lot of this stock to be had in this market asked last month 160, and now is not anxious to sell at that price.

The Thales has brought out a consignment of splendid Lincoln rams to Mr. J. H. Getting. They will be sold by auction in a few days by Messrs. Tallaferro & Sanchez, Calle San Martin, and we advise the farmers to call and inspect them, as the Lincoln breed is pronounced by all to be the very best for the outside camps.

We hear of the sale of 4 leagues of camp adjoining the Curumalan fence, for five hundred thousand dollars m/c per league; the land is the very best.

The following were the sales at the ring during official hours:—

Cedulas—
For June 30th E 15,000 at 89⅜
For cash F 5,500 at 84⅛
Sales, 20,500

National Bank Shares—
For June 30th 1,300 at 152½-⅜-⅝-½-⅝-¾
National Bank Certificates, 40 o/o paid—
For June 30th 200 at $70
Hard Dollars, 1863—
For cash 22,700 at 89

The storm on the South Coast has been very severe and the steamer Toro had a bad time of it, but she braved it well and shut down the hatches; the waves off Cape Corrientes were mountain high.

Several new outsiders have entered the National Bank share market in these days and have purchased by order of one of the city judges for the investment of a judicial deposit. The judges are now ordering money, sub-judice in deposit, to be invested in Nat. Bank Shares and Certificados instead of Cedulas, etc. This is very important news for holders of Bank Shares.

The total number of shares coming back from London is but 4,200, and not 10,000 as was stated, and a business is now being arranged by cable for a loan on shares for a still larger number than those which are coming out.

The Nat. Minister of Hacienda, Dr Plaza, is busy in his house preparing the budget for the new fiscal year, and H.E. does not come to his office at the Government House.

The Sud America has arrived in Montevideo with 317 emigrants and passengers. The Orione is on her way to the Plate with 800 emigrants. "The cry is still they come.

Telegrams from Montevideo quote Unifieds at 60—a stiff rise. Speculation in Montevideo rules very brisk, and capitalists in this market are being whirled into the vortex in the Mount.

Mr. Fisher, manager of the Central Argentine Railway, Mr Robinson, traffic manager, and Mr Knight, accountant, were all welcomed on Change to-day, and their numerous friends were delighted to see them and hear the latest news from the Chicago of the Plate. These gentlemen are all down here in attendance on the railway congress now held at Mr White's office, and of which we reported yesterday. We never remember so many railway men in this city as at present; every hotel in town is filled with railway engineers, directors, contractors, etc. We suppose that next year we shall have the shareholders out on a visit here. We have a hearty welcome for all, and especially for our Rosario friends who were so kind and hospitable to the editor of this paper last month when on his trip to Mendoza.

The sale of 34 shares of the Catalina Mole is reported at 95; the shares are for 1,000 pats each.

Captain Fairfax, just before leaving for England yesterday, bought 4 square leagues of prime land at Puan at the rate of 10,000 National Dollars per league, payable in England £7,500 stg. We congratulate our gallant friend on the purchase.

400 squares of land in Las Heras have been rented for 65,000 $ m/c. per annum, which shows the great value land has taken out there.

The sale of the Dennehy estancia at 9 de Julio, on which there is the station Dennehy, is reported. This property is well-known to all the farmers in the West, and has good comfortable houses, montes, etc.

We publish in another column a very satisfactory telegram from the Methven sugar factory at Simoca, Tucuman. Everything seems to be going ahead there well, and the crop of sugar cane promises the very best.

The R.M.S. Elbe left Rio yesterday at 10 a.m. for the Plate.

The steamer Wexford, consigned to Messrs. Thomson & Co. Rosario, left that port on last Monday for Campana, to take in another frozen mutton cargo. We have received some more frozen mutton news which we hold till to-morrow.

Mr Trebino, the well-known broker, has sold ten cargoes of coal these last few days at reserved rates, supposed to be $10 m/n outside and $11 m/n in the Riachuelo, and $11 to 11½ up-rivers firm. According to private advices which we have received, large quantities of coal are on the way out to the Plate. Mr Trebino has also sold: three cargoes of Glasgow coal at about $10 in the Riachuelo; stock in market pretty heavy and prices weak; also a cargo of Newcastle coal at reserved price, there being little demand in the market for this article; also a lot of English coke for foundry at $18 on board, the market closing firm at this rate.

We call attention to an advertisement in another column offering for sale in Barracas al Norte some fine machine works, economical boiler, compound engine, high brick chimney, forges, etc. All this may be had for a bargain, as the owner leaves for Europe. The place is in a well-situated part of the most busy and industrial portion of the city. Interested parties can get full particulars at 101 Calle Cangallo. This is an excellent start for some enterprising party.

Three cargoes of Cadiz salt have been sold by Mr. Prebius at about 9½ rls. per fanega on board in the Riachuelo.

The splendid strong-room which Messrs. Schwarz built for the Mortgage Bank cost $22,000. The Board of the Bank accepted Messrs. Schwarz's offer as the cheapest: that presented by a firm of this city amounted to about $30,000; this shows the importance of this strong-room, one of the greatest pieces of iron work carried out in South America. This colossal iron room weighing 60 tons is now in La Plata, and parties who have seen it state that it is well worth a visit from Buenos Aires; they never imagined that such work could be carried out in South America. The door of the room alone weighs two tons, and the wings can be swung on the hinges by a child. Another important feature is the cheapness of the room built here compared with the amount asked for building same abroad.

Mr. Gonsalez Arrascaeta, the well-known broker, has sold two leagues of land in the VIII. section at the rate of $90,000 $ m/c. each cash.

Mr Barrenechea has bought 1500 squares of land in Cañuelas for $3,750,000 m/c, at the rate of 2,500 $ m/c per square; seller, Mr A Huergo, Mr Barrenechea forms now by this purchase a fine estancia of three leagues, which he intends to place on a model footing for the fattening of cattle for the consumption of this market. The price paid may appear excessive to some, but it must be remembered that lands of this quality, situated within a radius of ten leagues from the city, are not to be had under four million dollars per league.

Mr. Marion of Tuyu was welcomed on 'Change to-day.

There was great excitement in the liquidation parlor after four o'clock owing to the new rule prohibiting the entry into the parlor to all except brokers. Outsiders argued that the new rule is against the regulations and therein they may be right; but for convenience sake they ought to obey the new rule as the crowd in the liquidation parlor during afternoons is often so great that it becomes a nuisance. The brokers stood their ground and opposed the invasion of outsiders, and some amusing incidents ensued. The uproar at half-past five was so great that many people in Calle San Martin thought that a Dublin Conciliation meeting was going on inside.

The share market opened firm during afternoon; rates went up to 152½, but fell subsequently to 152⅛ for the end of the month, between buyers and sellers.

The *Times* of the 12th May publishes:—The North German Lloyd steamer Ems passed this morning St. Catharine's Point at the speed of 20 knots per hour, or equal to about 23 English miles. The European Insurance Companies made an arrangement with a Salvage Company to raise the Kosmos steamer Denderah which was sunk at St. Vincent by the steamer Rio. The steamer Recanery from Liverpool was expected on the 26th of May at St. Vincent to commence immediately to raise the steamer and cargo. The conditions are "no cure no pay"; if saved 25 o/o of the value to the Salvage Company.

From the Plaza Once we have the following 83 waggons with produce arrived.

The arrivals were:—
1,600 @ of wool
894 bags wheat
1,983 bags maize
9,944 @ flour
205 bales hay
and much hides and skins, &c.

Little business done. Prices of produce without variation.

Sheepskins, wool, hair, cow hides and corderitos flat, and other produces no variation in prices.

The sales were:—
Wool—
No sales.
Cow Hides—

Banco de la Provincia

Recibe depositos voluntarios que no bajen de $400m/c. y $16 fts. de curso legal y oro efectivo.
Estos depositos de moneda corriente y moneda legal ganarán interes si permanecen 60 dias; pasados estos se los abona interes desde el dia de su entrada.
Los intereses se pagan en los primeros dias del mes ó en e momento de retirar los depositos; y los no cobrados durante el año se capitalizan concluido el del deposito.
Todo deposito á prazio se inscribe en una libreta que el Banco entrega al depositante, en la cual constan ademas las salidas por pago de intereses; no entregandose ninguno sino en vista de la libreta respectiva.
Recibe depositos comerciales, disponibles en todo momento como los anteriores.
Recibe depositos a oro pagaderos á la vista sin interes y á plazo de 60 y 90 dias, 6 mas, los que serán devueltos en monedas de oro de curso legal.
Descuenta tres veces á la semana letras con firmas abonadas á plazos de 90 dias, y tambien pagarés de comercio desde siete dias hasta seis meses, con la condicion de ser abonados integros á su vencimiento.
Descuenta tambien a oro efectivo, pagarés de comercio desde siete dias hasta cuatro meses, con la condicion de ser abonados en la misma especie a su vencimiento.
Da libramientos a tres dias vista sobre las Sucursales de Dolores, San Nicolas, Chivilcoy, Mercedes, Lobos, Salto, Azul, Baradero, Chascomus, Tandil, 25 de Mayo, Exaltacion de la Cruz, San Pedro, Pergamino y Las Flores.
Las Sucursales dan cheques contra el Banco al portador, nominales y cruzados.
El Banco abona comision á los corredores en la primera introducion de las letras y pagarés a descuento.
Desde el veinte del corriente, y hasta nuevo aviso, regirá la siguiente tasa de interes y descuento para las operaciones á moneda corriente de curso legal y oro efectivo:

SE ABONA

Depositos comerciales m/c. y curso legal 3 o/o
Id particulares a premio..... 5 "
Id a oro á la vista, (sin interes)
Id id 60 á 90 dias ó mas..... 2 "

SE COBRA

En el descuento general de letras y pagarés, comercial y no-comercial, en moneda corriente y curso legal y oro efectivo..... 7 "

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.
Presta sobre hipoteca con reembolso á largos plazos.
Por el valor del prestamo de cedulas hipotecarias que produzcan una renta igual al interes que cobra el Banco.
El valor del inmueble hipotecado no debe ser menor de $f 2000 n el prestamo menos de $f.500.
Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.
El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.
Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.
El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamon, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.
Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.
Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.
Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.
El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.
El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.
El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

A Derangement of the Liver.

THE CAUSE OF DISEASE IN THE

STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medecine, by

Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Glucose and Peptone, and in these forms enters the Portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vain, into the great circulation. The new material now formed serves two purposes: viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says "The composition of bile and its secretion is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know of:—

1. The patient complains of a feeling of weight and fullness of the stomach.
2. Distension of the bowels by wind.
3. Heartburn.
4. A feelingof weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill

(SUGAR COATED)

One Pill is a Dose. One Pill is a Dose!

For all Diseases of the Kidneys, Retention of the Urine, Dr. Haydock's New Liver Pills are a perfect cure. One Pill will satisfy the most skeptical.
For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills, will be found an Effectual Remedy.
They are universal in their effects, and a cure can almost always be guaranteed.
Each vial contains Twenty Pills. One Pill is a Dose. Price Twenty-five cents.
For sale by all Druggists.

Every Pill is Sugar-Coated. If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. Buy at once.

EDITOR'S TABLE

(Continued from 1st page)

Every man can now, it appears, start lottery on his own hook. Several of those at present in circulation are mere ventures by private parties with a little ready money, or none, as the case may be; and such is the complicated state of the law owing to our precious and costly Constitution, which has endowed the country with *fourteen* different Governments when one would suffice, that nothing can be done, unless the sovereign Congress take the matter up, to prevent the public being 'plucked.' Yesterday the police discovered another of what are styled "claudestine" Lotteries; but there is nothing claudestine about it, if the necessario has paid his Patente. Such is law.

The Provincial Senate has made Dr. Pacha, ex-Governor, a present of a "manzana" of land in the new capital of the province. Senator Carbone, who proposed the motion, which was carried "nem con," said that the Senate had made gifts of land to other Governors who had done nothing particular to deserve it; but he thought that the man who had founded the new city in the teeth of so many difficulties, certainly deserved a plot of ground in it. The House endorsed the "happy thought" without a dissentient voice.

The site for the new British Hospital is in Calles Caseros and Solis. The Municipality pays for the present site $500,000 m/n and the right to occupy the Hospital for two years rent free. The Committee have made a capital bargain.

Our operatic "cream of the cream" will be sorry to hear that Madame Nilsson thinks that Italian opera is going to the dogs, and she ascribes its decadence to no less a personage than the Heir Apparent to that empire on which the sun never sets. A New York correspondent writes. "A few days ago an American interviewer paid a visit to Mdme. Nilsson in order to ascertain her views on the future of opera. What he said was pretty much as follows:—Italian opera is in its decline in England. Why? Because the opera house has, firstly, lost in a great measure the patronage of the aristocracy; and, secondly, has been more or less deposed for the theatre; and, thirdly, that the prices are too high for the general public. In America there is a public taste for Italian opera, but the receipts are swallowed up by the expenses. Mdme. Nilsson hesitated for a time, then admitted the truth of the proposition. "In England the leader of society has led the aristocracy, upon which Italian opera depended chiefly for support, into a lower kind of musical taste and theatrical performances far removed from the higher order of music and the classical Shakepearean drama. That is, he has been the protector for some years of English opera bouffe, French opera bouffe, and light burelsque plays, to the exclusion of more elevated entertainments. This is the reason Italian opera has declined in England. Having spoken thus plainly, the prima donna turned to America. The expenses are enormous, and cannot well be otherwise under the existing circumstances. Living is much more costly here than in Europe. Crossing the Atlantic is a terror to most foreign artists, and they will not come unless they are paid much more than on the other side of the ocean. All the employés, and supernumeraries, as well as artistes of every grade, are paid more here, and everything is on the same scale of cost." What does Mr. Gye say to this?

The author of "Los Silvidos de un Vago" is writing another book of the same kind, to be called "Musica Celestial" and which is expected to create a tremendous sensation.

An American paper says:—"An illustrious compiler of tables asserts that 17,000 dentists exist in the U. States, who annually pack into the teeth of our citizen, over a ton of pure gold. Continuing, he observes that in the 21st century all the precious metal exhumed from the earth with great patience and pertinacity will be buried in grave-yards. This information ought to be in the nature of a revelation to the treasure-seekers, who can now locate the wealth they are in search of with more precision than they could with the aid of the best divining-rod ever fashioned by the most skilled backwoodsman."

An "attorante" presented himself at one of the police stations on Monday night and implored hopitality, stating that he had just walked in from La Plata. He was shown into the blackhole, shivering with cold, and found there next morning lifeless.

Brown's Dentrifice

There is no tooth powder, paste, or wash, that will whiten and beautify the teeth like Brown's Camphorated Dentrifice

Recommended by the principal dentists. Price 40 cents per bottle.

Base para la venta

350,000 PESOS

LA LEGUA

En nuestra casa

78——ALSINA——78

El Jueves 26 de Junio 1884

A las 2 de la tarde

Remataremos a la mas alta postura y dinero de contado por orden de su propietario:

El campo arriba mencionado es compuesto de 6247 hectareas, 14 areas 31 centareas Partido de Necoches, que forma parte del conocido por Las Calaveras, sobre el Arroyo Quequen Grande, en una estension de mas de dos leguas, cuya magnifica aguada permanente es de suma importancia para un gran Establecimiento de campo.

Linda arroyo en medio con Don Juan Anchorena y con los establecimientos de D Jose E Fernandez, y Manuel F Poblet, Nicanor Elejalde y Juan N Fernandez. Contiene el campo el camino carretero que viene del Tandil al Puerto de Necoches tenia en el mismo paso del arroyo una casa de negocio de Felipe Eguinoa denominada San Cala, quien debido a la gran afluion de tropas y pasageros, tenia salida de la caponada que le producian al año mas 12,000 ovejas, asi es que no tenia que buscar otro mercado para esos articulos.

Existen actualmente los siguientes arrendamientos sin contrato:

Don Juan Gimenez que ocupa cerca de una legua con cinco poblaciones con mas de 1500 cabezas de ganado vacuno, 8000 ovejas y yeguas, abonando solo y por consideracion de antiguedad 22,000 pesos al año, en la legua y media restante, que comprende a San Cala, hay un sola puesto del catalan y por cuya area daba la importancia del parage puede arrendarse por 60,000 ps. al año; habiendo varios fuertes comerciantes de Juarez interesados en arrendar toda el area o la desocupado por un termino largo, pero se ha querido conservar el campo en sus actules condiciones para que el nuevo propietario pueda disponer de el a su antojo.

El campo esta alambrado por los costados de los Sres. Elejalde, Arroyo de Quequen Grande, Sr. Anchorena, y alambrándose por el costado del Sr. Fernandez.

El Ferro-Carril del Tandil a Juarez, que se inaugurará en Setiembre facilitará la comunicacion y transporte, pues queda a nueve leguas escasas del Pueblo de Juarez.

Una parte del campo (1,6-10 legua) reconoce un gravamen de 5000 ps. al Banco Hipotecario que se atiende perfectamente bien con el arrendamiento que paga Gimenez dejando todavia un sobrante.

Las personas que quieran inspeccionar el campo pueden dirijirse al Sr. D. Jose Echenagucia en el mismo campo.

Se ha fijado la base para la venta es 350000 ps. legua, precio ofrecido en Marzo del año pasado por el Sr D Jose R Fernandez, precio bajo comparandolo con los precios obtenidos por el Gobierno de la Provincia en los ultimos remates, por campos infinitamente inferiores y en pleno desierto.

Para planos y pormenores ocurrir a nuestra casa Alsina 78, o a la oficina del escribano Echenagucia, Alsina 95.

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Crup, Ague.

CHLORODYNE acts like a charming Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa, and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words "Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer

J. T. Davenport

33, GREAT RUSSELL STREET, BLOOMSBURY, LONDON

Sold in bottles at 1s. 1½d., 2s. 9d, 4s. 6d., and 11s.

Catalogues in English and all European Languages can be obtained from

THE SOLE IMPORTERS

THOMAS DRYSDALE & CO

92-MORENO-96

BORWICK'S BAKING POWDER

Used by thousands for making Home-some Bread, Cakes, Flour-Puddings, &c. Sold in 2½ 4 3d., packets and 6d. & 1s. boxes, by all Shopkeepers and Grocers.

Invaluable at the Diggings, and in the Bush, also on board Ship, as small loaves of the best Bread or Scones can be made in a few minuter without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farmhouse bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and BORWICK'S BAKING POWDER. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been in the trade,' and nothing I can say will convince them to the contrary."

Four Gold Medals awarded. Manufactory:—C. BORWICK & SONS, Chiswell Street, London.
